**VOLUNTARY ANNOUNCEMENT –
UPDATE ON RENTAILS PROJECT FEASIBILITY STUDY AND
CLARIFICATION ON COMPETENT PERSON**

This is a voluntary announcement made by Greentech Technology International Limited (“**Company**”, together with its subsidiaries, the “**Group**”). References are made to the voluntary announcements made by the Company dated 26 July 2021, 15 October 2021, 16 January 2023 and 18 August 2023.

DEFINITIVE FEASIBILITY STUDY UPDATE

The board of directors of the Company (“**Board**”) wishes to provide an update on the Rentails Definitive Feasibility Study Update (“**DFS Update**”) in relation to the Renison Tailings Retreatment Project (“**Rentails**”), which update is based on the information provided by Metals X (as defined below). Rentails is part of the Renison Tin Operations (“**Renison**”) managed by Bluestone Mines Tasmania Joint Venture Pty Ltd (“**BMTJV**”), in which YT Parksong Australia Holding Pty Limited, an indirect non-wholly owned subsidiary of the

Group, has a 50% equity interest. Metals X Limited (“**Metals X**”), a company incorporated in Australia with limited liability and the shares of which are listed on the Australian Securities Exchange, owns another 50% equity interest in Renison through its 50% stake in BMTJV.

The DFS Update is focused on the influence of changes in technology, market conditions and available fuel sources for the thermal plant, and will update capital cost estimation and contracting strategies with the aim of reaching a final investment decision. The DFS Update is expected to be finalised in the third quarter of 2024.

Pending the completion of the DFS Update, an announcement of the updated Rentails Ore Reserve will be published. Nevertheless, a material change in the Rentails Ore Reserve is not anticipated.

It is further noted that the previously reported Rentails Mineral Resource and the Renison Bell Ore Reserve and Mineral Resource are not impacted.

CLARIFICATION ON COMPETENT PERSON

On 19 December 2023, the Company released update to the Renison Bell Ore Reserve and one of the Competent Persons signing off on the Renison Bell Ore Reserve was Mr. Philip Bremner (“**Mr. Bremner**”). However, the Competent Person statement in that announcement incorrectly noted Mr. Bremner as Competent Person for the **total** Ore Reserve (i.e. inclusive of Rentails). It should have instead noted Mr. Bremner as Competent Person for the Renison Bell Ore Reserve and clarified that the Rentails Ore Reserve was previously reported in accordance with the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves 2012 on 28 August 2017.

Shareholders and potential investors are advised not to place undue reliance on the information disclosed herein and are advised to exercise caution when dealing in the securities of the Company. Any shareholder or potential investor who is in doubt is advised to seek advice from professional advisers.

By the order of the Board
Greentech Technology International Limited
Tan Sri Dato' KOO Yuen Kim
P.S.M., D.P.T.J. J.P
Chairman
